

Health and Social Care integration questionnaire

Have your say on health, care and wellbeing in Cornwall and the Isles of Scilly

Cornwall Council and NHS Kernow are seeking the views of people across Cornwall to help shape future health and social care provision and improve the wellbeing of our residents.

The way we commission and provide health and social care services was created more than 60 years ago and need redesigning. The Government has offered Cornwall more powers as part of the 'Deal for Cornwall', and as part of that we have been asked to put forward a new plan to meet the health and social care needs of Cornwall residents today and in the future.

Challenges facing us include rising costs because of increased demand for services as people live longer with more complex conditions. There are reducing levels of funding for some areas of health and social care. We also have some of the most disadvantaged neighbourhoods in the UK.

Given the financial challenges and the pressures on our health and social care system, we must better prepare our services for the future using the resources available in the best way possible.

Please let us know your health and social care priorities, which we will use to help assess the options to deliver improved services.

The closing date for responses is **14 March 2016**.

Kernow Clinical Commissioning Group

Q1. Where is your closest large town?

E.g Truro, St Austell, Camborne, Bude, Penzance

Q2. What is your age?
